

THE RICH AND THE POOR— ALL ARE VICTIMS OF CATARRH.

The Power of Pe-ru-na in Combatting This Disease Has the Admiration of the World.

ALL men, even strong ones, may become victims of catarrh.

Catarrh may affect any organ—the head, nose or throat, as well as the stomach or kidneys.

In summer the digestive organs are most commonly affected. In winter the respiratory organs fall victims to catarrh.

Catarrh sometimes commences with a cold which fastens itself upon the mucous membranes of the body.

Then it develops into a catarrh, and the patient begins to sneeze, cough and ache. He loses his appetite, is tired and his sleep is not as refreshing as it used to be.

Pe-ru-na is especially intended for the relief of these catarrhal affections.

To obtain the best results from the use of Pe-ru-na in catarrhal diseases, Dr. Hartman's book, entitled, "The Use of Life," should be kept as a reference book in every family.

"A Cure for Catarrh in All Its Forms."

Mr. Hiram A. Stiles, Middleton, Mass., who has reached the age of 82 years, writes:

"Your Pe-ru-na has done a good work for me. I have been troubled with catarrh affecting my head, stomach and intestines.

"This caused dyspepsia and constipation, and finally terminated in my lower limbs in the form of painful rheumatism, and also caused sluggish circulation of the blood.

"I have taken several bottles of your Pe-ru-na, with good results. I cheerfully recommend it to all who are afflicted in a similar manner.

"As a cure for catarrh in all its forms and as a tonic for general debility, it is seldom equaled."

"The first bottle had almost been taken when I felt a marked change in my suffering.

"I then bought another bottle, and when I had finished that my stomach began to get back to its normal condition and the headaches disappeared.

"There was absolutely no return of the former complaints and I am now prepared to continue my profession."

"I invite you to refer suffering humanity to me regarding your phenomenal curative."

"I feel that I should be false to my fellow man and to every duty I owe to the world if I did not freely, fully and most gratefully tell the suffering what Pe-ru-na has done for me."

"Pe-ru-na Saved My Life."

Mrs. Clara Litterst, Seafield, Ind., writes:

"I am confident that Pe-ru-na saved my life. Last fall I took a severe cold, which settled all over me. I thought I would try Pe-ru-na.

In less than a week I began to improve and kept on so until I was able to do my work."

A Letter to Suffering Humanity.

Mr. Abraham Lawrence, 320 West 23d street, New York City, writes:

"Permit me to add my testimony to the thousands who must already have concerning the truly wonderful properties of Pe-ru-na."

"While working at my calling, which is that of a painter, my stomach became out of order and I suffered dreadfully from headaches."

"Every day was the same. I continued to suffer until finally I was compelled to give up my position."

"Every remedy at hand was tried, but I still suffered."

"In my agonies I thought of Pe-ru-na, though I had little faith that it or anything else would relieve me, as I still had a touch of an old case of catarrh in my system."

NO GENERAL RECOUNT OF VOTES

50 TAMMANY SAYS—COURT OF APPEALS HAS SETTLED THAT.

Gov. Higgins Declines to Interfere With Ballot Boxes. Every Box Now in the Custody of the Election Board—Mr. Davis Pours a Bucket of Cold Water.

The Tammany law committee holds that under a Court of Appeals decision the only ballots that can be recounted after an election are the ballots returned to the County Clerk as void and as protested. Of these the void ballots are such as are returned "not counted for any candidate" and the protested ballots are those returned indorsed "protested as marked for identification," which ballots, the law has been observed, have been counted and figure in the election night returns.

The county canvassers can order corrections of clerical errors as to these ballots to be made by the election district boards, but when it comes to a "recount" even of these a mandamus from the Supreme Court is required under Section 114 of the election law, and the court determines whether or not any of the "protested" ballots should be excluded or any of the "void" ballots counted.

As to the sealed ballot boxes containing such of the counted vote as was not protested, Section 111 says that they "may be opened and their contents examined" upon an order of Court. That this does not mean that the ballots may be recounted is shown by the Tammany lawyers say, by a decision of the Court of Appeals in an election contest of Wray against Brink. Brink was elected a supervisor of an up-State county in 1903 by one vote. On November 21 Wray asked for a mandamus to compel a recount of the votes. This case was carried to the highest court, and the Tammany lawyers quote this as the opinion given by Chief Judge Alton B. Parker, and concurred in by Judges Haught, Gray, O'Brien and Werner, Judges Vann and Bartlett dissenting:

"While Section 111 of the Election law authorizes the Court to open the boxes and permit their contents to be examined, it does not confer the power to direct a recount; therefore, mandamus will not lie to compel it."

Charles H. Knox of the Tammany law committee said last night that this could be found in the 12th New York reports, and that in his opinion it settled the matter as to a general recount of the vote in this city.

The least men having applied to Gov. Higgins for the use of the National Guard armories to store the ballot boxes in and for a military guard for them the Governor has refused.

1. That if, as the statute provides, Major-General Roe commanding recommends the will, upon a proper bond being given, allow such a use of the armories and

2. As to the second request, ample provision is made in the Election law for a canvass through the machinery of local courts of the vote cast in any election district in the State. This is purely a judicial proceeding. It does not appear to me that a condition of a truce exists in the city of New York, which is a condition which must precede the active interference by the Governor with the local authorities in the administration of law in the various localities of the State, especially in view of the fact that Section 86 of the military code makes ample provisions in case of any breach of the peace or resistance to process of this State or imminent danger thereof for a Justice of the Supreme Court or other local judicial authority to call for aid upon the commanding officer of the national guard or naval militia stationed therein or adjacent thereto.

"Proceedings of this character should always be conducted by the courts, especially when ample provision is made for every emergency that may arise in the proceedings."

"I must decline to interfere with the disposal of the ballot boxes, or to determine where they shall be stored. I am willing to give my consent, when proper application is made in accordance with the military code, for such use of the armories in this emergency as the court may feel disposed to make."

The Hearst men said that they would now

go to Gen. Roe.

President Voorhis of the Board of Elections said yesterday that, no matter whether armories were secured or not for the ballot boxes, he should refuse to move the boxes again without a court order.

"I will not face any responsibility without that," said he. "That was one reason why I waited until I got Justice Dickey's order on Thursday, expressly directing me to receive the ballot boxes. Then I knew that I had the courts to back me up if anything happened to the ballots. This moving around of the ballots is absolutely silly. They are being carefully watched and it is impossible for any one to tamper with them. The stories that a plot is being hatched to tamper with them are just as silly as the stories of these ballot boxes turning up."

The boxes found are boxes for mutilated ballots, which are often left at polling places for weeks after election and often thrown out by store proprietors. Every box containing actual ballots voted is accounted for and is now in our custody carefully guarded."

A bucket of cold water on amateur canvasses of the vote and the outcry that has

accompanied them was poured by William M. Davis, who sent last night to the Hearst men meeting a letter saying:

"If I were present, I should advise the utmost coolness and deliberation in all of your proceedings. The law is entirely clear and will be fully vindicated in the courts by a judiciary of great ability and beyond any suspicion of partisanship. The material thing to do is to discover how the great constituency of the city of New York recorded its will, and its will, as actually recorded, must prevail, independent of all question of party or personality. I am an old fighter—one of the original fighters—in the battle for ballot reform and purity in elections. It seems to me, if I may be permitted to say so, that the work of the canvass and the determination as to how the people recorded its verdict is the work of the courts, and of the courts solely, whereas the work of the people is at the earliest possible day to begin the struggle for the rectification of the law of the primary elections so far as concerns candidates for municipal office."

Complete Assortment of Fine Wool Dress Goods

We are now showing as full and complete lines of New Dress fabrics as we did at the opening of the season. Purchasing these goods eight months ago enables us to still maintain the old prices, notwithstanding the universal advance on all dress materials.

Our large and varied stock of French, German, Austrian and Belgium Broadcloths affords the greatest variety in the different weaves and latest fashionable colorings.

We show in 30 different colorings the old reliable make Henrietta—it is the best imported cloth. We offer it at \$1.25 per yard.

54-inch Oxford Gray Suitings, overlaid effect, made from the purest wool, beyond the ordinary value, at \$1.25 per yard.

54-inch Worsted Cheviot Suiting, in black and blue; has sold at \$1.65; marked special at \$1.25 per yard.

In the Black Dress Goods Department

The collection of nice Imported Broadcloths in the better grades, as well as the lower numbers in the domestic weaves, is the finest we have ever shown. Some of the nice numbers at \$2.00 and \$2.25 per yard have a rich black glossy finish which will not be affected by raindrops.

On Special Tables Monday

175 pieces MIXED SUITINGS, all wool, 44 inches wide, very desirable winter materials; special, per yard.....

50c

137 pieces IMPORTED FANCY MIXED SUITINGS, 44 inches wide, AT ONE-THIRD FORMER PRICE, viz., per yard.....

69c

Very fine showing of White Bearskin and English Furs.
